

Schaerer Coffee Art C

Leading the Bean-to-Cup Coffee Revolution

Schaerer Coffee Art C

Features and Benefits

Operational Advantages

- Fresh hot and iced coffee on demand at the push of a button.
- Real iced coffee without sacrificing taste (no melting of ice or dilution).
- Every brew cycle is consistent and ground straight from the bean for unsurpassed freshness, aroma and taste.
- Speed – Faster than a traditional drip brewer without recovery time (64oz carafe).
- Schaerer Coffee Link - provides a 360-degree view of your coffee business with real-time data and advanced analytics.
- Reduce waste – There's no need to hold coffee anymore.
- Save energy – Unlike drip coffee makers, there's no need to heat and maintain large quantities of water in reserve.
- Less labor – Avoid all the handling and maintenance required with drip coffee makers.
- Simple and intuitive user interface, ideal for self-serve and staff operated environments.
- Supports multiple bean types.
- Easy-to-follow animated cleaning instructions
- Aesthetic design for high visibility concepts.

Capacity

- 70-80 beverages per hour (16oz)
- Up to three hoppers with dedicated grinders each hold up to 2.2 lbs.

Programming Flexibility

- Dosage, volume, pre-infusion and bypass settings are programmable for each beverage selection.
- Up to 80 programmable options.

Specifications

- 208V, 20 Amperes
- NEMA L6-20R Receptacle
- Machine: 17" (W) x 22" (D) x 28" (H)

- **Performance capacity indicative in nature**
